Secretary, to Government of His Highness
the Maharaja of Mysore, Revenue Department,
B a n g a l o r e.

Sir,

I have the honor to state that as the rainy season is over and there will be the need for Drinking Water Wells in the Malnad, the subject was brought up for discussion at the District Board Meeting ~~yesterday~~ on 17-11-21. The members were all of opinion that as free wells have been given in the Malnad during the previous few years under the Malnad Improvement Scheme it is necessary to continue the same concession and meet the demand for wells in the current year also without enforcing the rule of payment of contribution as in the case of the people in the Maidan parts.

2. In order to do so, the Board consider that it is necessary to set apart a sum of Rs.10,000/- out of the Drinking Water Wells Fund for the new well works in the Malnad, the expenditure being adjusted as incurred from time to time. A copy of the Board's resolution in this connection is enclosed for reference, and it is requested that permission of Government may be kindly granted to utilize whatever sums are necessary up to the extent of Rs.10,000/- out of the Drinking

5. Allotment for Well Works under the Malnad Improvement Scheme.

Resolution. As there is no allotment for new works under the Malnad Improvement Scheme, a sum up to Rs.10,000/- out of the Drinking Water Wells Fund of this District may be transferred to the funds of the Malnad Improvement Scheme of this District solely for well works, the expenditure being adjusted as incurred from time to time. The expenditure for the well near Arekere School approved in this meeting will be met out of this sum of Rs.10,000/-. Necessary recommendation may be made to Government.

9) What about the Objection if any raised by the 3rd member. His hand-book regarding the malaria schemes merged in the D.B?

10) Was the D.B spending any money on wells when the M. schemes was in force

14

This is said to be the balance at the credit of the Drk Wells fund. DCS

11) The closing balance req. to in para 4 above is the opening balance for 1921-22 of the B^d

12) Since the working of the Malaria Dept scheme is now merged entrusted to the D.B^s under Govt. No. G.O. 4560-6 Fin 103-20 dt 10-6-1921, there seems to be no financial friction & the transfer of funds req. to —

13) The District B^d also was spending for such works in the maidan tracts of the dist while the Malaria Dept Committee was utilising the malaria funds for wells in the malaria portions

15) The work started by the Madras D. Comm was ordered to be suspended & the operations system adhered to by Govt. No good grounds have been put forward by the ryots for not paying their 1/3 share of cost of such wells. Such a reckless policy of the D.B may cause embarrassment eventually.

16) I agree with the Rev Secy. We have no surplus of funds for such generous proposals.
I do not know what the Drinking Water fund referred to is. I think each D.B. has a fund of this kind. If this D.B has enough balance it may spend it under the usual procedure. But in the present state of finance all deferrable outlay should be deferred. mes 1.2.22

18) I am not quite sure that the Bd has 36160 at the credit of the drinking water wells fund. Even if it has the ryots of the madras parts who are paying contributions for the construction of wells will naturally ask for similar exemption from payment as the malnad ryots. It is also a point for consideration whether the Bd should spend Rs. 36160 for wells in the malnad parts in a year. If they spend a like amount for the madras parts also, there will be famine next year

The proposal that the Bd should hereafter make an allotment of Rs 36000 for M. I. wells only and the D. W. W fund may be approved. It means that in case of malnad parts, the contribution from the ryots under the D W W fund scheme will have to be waived.
